Stage Lighting

SMART-HDL®
Smart High Definition Living

# Dimmer

FEATURES:

- 48-96 Dimmer outputs
- Bigger LCD for convenience control
- Built in temperature sensor for each dimmer
- Smart Automatic cooling fans with Auto speed level depend on the Temperature Level for each Dimmer and it work statues
- Fast control to response, allowing you to receive 4 signal simultaneously from the consol
- 2 DMX input port to connect to 2 different console in the same time
- Fiber optical, and Ethernet Ports for fast and better Communication
- Short-circuit protection and safety breaker when you pull the dimmers module out
- Dual Filter to protect your dimmer from dust
- Dual fully digital triggering system, Backup cue Recording, editing and playback more than 99 cues
- More than 30 dimming curves, can be set from 11-99% for better control and feeling
- Support HDL-NET, ARTNET, ACN and DMX512, protocols
- Fully 2 way monitored by PC software
- SMS alert if breaker down, overheat or overload for each Channel
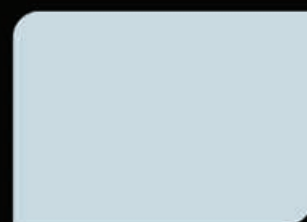

FEATURES:

- Trailling Edge Phase Dimmer
- Optional 2 channel dimmer power output 2.4 Kw, 2 Ch Dimmer Power 5 Kw, 1 Ch Dimmer Power output 10 Kw
- Low Noise Dimmer Technology

![SMART-HDL Smart High Definition Living logo]
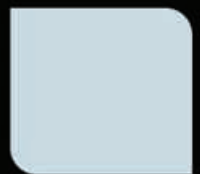

FEATURES:

- Control up to 2948 channels, 2048 cues, 99 effects, 999 macros, 96 submasters per page * 4 pages
- 29 storage memory
- Double VGA out for convenience monitoring
- Flash storage and external USB storage
- Support MIDI and SMPTE
- Support HDL-NET, ARTNET, ACN and DMX512, protocols
- WIFI for PDA control function, Ethernet and Fiber optic connection
